CONDITIONS OF ISSUE:

Note: CE Marking is generally a self-certification process & products entering the European Union are subject to the requirements set forth in the European Directives. It is the responsibility of the person placing the product on the European market to ensure compliance with applicable Directives.

This SOC is limited to the Directives/standards referred on the first page only, any other Directive/standard not part of the SOC are not part of the review.

This document is issued as a confirmation of the fulfillment of the documentation requirements as called for by the above listed Directives only and is based on review of the documents like test reports, compliance documents etc. and only availability of design documents on file submitted by the manufacturer. However it has to be understood that the person placing the product on the European market has the responsibility and liability to ensure all CE marked products fulfill all relevant provisions of Directive/s referred in this statement of confirmation and all other applicable Directives.

Each product must be accompanied by the instructions for - Handling, Installation, Operation, Commissioning, Maintenance, Decommissioning, Dismantling, Disposal, etc. of the product/s as specified in the applicable Directives.

Each product must bear a distinct indication of the manufacturer or importer and a type designation so that the identity of the tested product with the series product brought on the market can be checked.

VALIDITY:

- This document is valid as long as the rules of technology on which it was based are valid.
- This document will become invalid on revision of any of the aforementioned regulations or standards.
- This document will become invalid if the design of the product is changed.
